

Welcome to
a health care
experience
designed
around you

At Sanitas, care feels personal, because it is.

That's why you'll find a team that's committed to your health and well-being.

From routine check-ups to managing chronic conditions, we're here for you every step of the way.

Primary care

- Annual health exams
- Disease prevention & education
- Diagnosis of illness & treatment

Onsite tests

- Most common lab tests
- X-rays, EKG, ultrasound

All under one roof

Fast access to personalized primary care, lab testing, diagnostic imaging, mental health services, and so much more.

Care personalized to you

Get all the attention you need for all-around care – from your Sanitas doctor and care team of nurses, health coaches, and nutritionists.

Always on, always by your side

Use our patient app to connect with a Sanitas provider and manage your health from home or on the road.

Ongoing care for patients with chronic conditions

When living with a chronic condition, you need care that goes above and beyond. Get individualized care before, during, after and between visits.

Your time, your trust and your health matter.

Spend more time with your provider— seamless care means not having to re-tell your story.

Virtual care

- Televisits
- Behavioral health counselors
- Educational resources

Specialized Care Programs

- Diabetes
- Heart disease
- Respiratory diseases
- Hypertension
- Mental health

A new kind of care for 2026
